

# Gardening with the Masters

**Saturday, April 8, 9:30 a.m.**  
**Sun Prairie Public Library**  
**Community Room**

## **9:30: GROWING TOMATOES IN DANE COUNTY**

Tomatoes are the most popular vegetable grown in our area, yet they can also be among the most challenging to grow. Learn how to choose the right varieties for you, how to start tomatoes from seeds, how to prevent and deal with diseases, and more about harvesting and storing tomatoes. *Presented by Dayna Dalton, UW-Extension certified Master Gardener Volunteer.*

## **10:30: VEGETABLE GARDENING 101 – PLUS!**

This presentation will cover plenty of basics, but also offer tips and techniques to improve your vegetable gardening results and successfully kick off your 2017 gardening season. Topics may include improving your soil, mulching and mounding, which seeds to start indoors, preparing for and dealing with diseases and pests, companion plant combinations, and planning for successive crops in one season. *Presented by Ritchie Rheume, UW-Extension certified Master Gardener Volunteer.*
